SUMMARY

Web developer in training. From Tokyo, now in Seattle.

- I'm one of only 38,000 female software engineers from Japan.
- I value teams with diverse backgrounds.
- I care about coding, cats, and coffee.

EDUCATION

Front-End Web Developer Nanodegree
Udacity — 2019

CSS Certificate
W3School — 2018

Bachelors of Policy Studies, Chuo University
Tokyo, Japan — 2009-2014

EXPERIENCE

Corporate Administrator, SMBC

San Francisco, California - June 2017 - June 2018, 1 year

I helped run the US operations of SMBC, one of Japan's top mega banks. I managed client accounts directly, and oversaw over \$7B USD of loans, deposits, and Forex.

Export Promotion, JETRO USA

San Francisco, California - Jan 2017 - June 2017, 6 months

After moving to the US, I was able to work on the Export Promotion team at JETRO, the Japan External Trade Organization. I helped over 10 Japanese accounts with market research so that they could do business in the states.

Corporate Associate, Uniqlo Japan

Saitama, Japan — 2014-2015, 1.7 years

Before moving to the US, I worked at Uniqlo on a career path that would lead to roles in the corporate office. I managed a staff of over 90, and oversaw the largest sales in Saitama history: ¥20M, nearly \$170K.

Japanese Sales Manager, Howard Johnson

Ningbo, China — 2011-2012, 1 year

I had a chance to work overseas in China at Howard Johnson, using both English and Mandarin on a regular basis, bridging sales and lingual services.

Head of International Relations Committee, AIESEC

Tokyo, Japan— 2009 - 2012, 3 years

I got involved in AIESEC to learn how international non-profits operate, to lead several conferences, and to contribute to internship programs assisting my alum.
